

## New Plan To Eliminate Boulevard Crossing

State Department of Public Works Submits Plan at Public Service Commission Hearing Here—Estimated Cost Nearly \$9,000 Less Than Plan Submitted by Railroad—New Plan Satisfactory to County.

C. H. Chase, assistant engineer of the Public Service Commission, held a hearing Tuesday afternoon at the court house on the elimination of the grade crossing on the Rosendale road, at the city limits. At a prior hearing the railroad submitted plans for the elimination but owing to a number of sharp curves in the project the Department of Public Works objected to that plan and asked for an opportunity to make a survey and submit plans.

E. W. Wendell of the State Department of Public Works at the hearing submitted plans for the elimination which propose to make practically all of the construction within the city limits. Under the plan as submitted the crossing would be on an overhead span located 767 feet northeast of the present crossing which would be closed. The total distance of the new construction would be 3,088 feet or .587 miles. Of that distance 160 miles would be in the town of Ulster and 427 miles in the city. The pavement of macadam would be from 20 to 22 feet wide and the roadway would be graded to a width of from 24 to 34 feet on the embankments and fills. The actual pavement would be of macadam with a 2-inch top dressing, 4-inch bottom and a 9-inch foundation.

State's Estimate Is Less. The estimated cost of the job as figured by the department would be \$24,000 divided into \$47,290 for approaches, \$46,726 for structure and \$3,984 for engineering fees, etc. The estimate as submitted by the railroad engineers for the work under plans presented at a former hearing was \$112,912. That plan was objected to by both the Department of Public Works and the county of Ulster on account of the introduction of several "S" curves.

The plans as submitted by the railroad also called for 500 foot radius curve while the plans of the department which it is estimated will cost less to carry out call for 800 foot radius curves which are much more desirable. If these curves are cut down to 500 foot radius the estimates would probably not be reduced. Mr. Jaynes for the railroad objected to the introduction of the 800 foot curves as not necessary. He said the road was a very crooked roadway as it now exists and there was but comparatively little travel and he did not think the 800 foot curves were necessary. To this the department engineer replied that they were building now for the future and in expending money they tried to spend it in such a way that it would not be necessary to rebuild in a few years.

County attorney Robert G. Groves called the attention of the railroad engineer to the fact that a few years ago the crossing at grade at West Park was eliminated. At that time it was deemed a good job. Now it is not adequate and very soon steps will have to be taken to increase this overpass to permit more traffic to pass and to eliminate the curves which exist in the overpass.

Details of New Plan.

The plan of the department calls for the new alignment to leave the present Boulevard at the high point of the crossing at the northeast of the Bower property at a point about opposite Condit street. From there the road would run straight in a westerly direction north of the Louis Bower property between the house and chicken coop eliminating the present "S" turn, coming in contact with the present road again below the Bower property and then running southerly over the Mrs. Anna Hyde property near the G. Charles lot over the concrete and steel span across the tracks to the southeasterly side of the railroad, and then over the high point of land on that side of the railroad for some distance to join the old alignment near the brook which flows to the south. The grades on the new alignment would be from 1.26 per cent to 5 per cent. Grades on the present road run over 6 per cent.

Plans Satisfactory to County.

County Attorney Groves stated that the county was willing to go along with the Department of Public Works in the matter as outlined. The plans were satisfactory to the county. Mr. Leroy Gill, who appeared for the city in the absence of Corporation Counsel Fleming, stated that he did not know the position of the city in regard to the city paying any portion of the cost of construction and the city was given an opportunity to advise the commission. Mr. Groves said the county was not willing to pay any portion of the cost of construction. The department's position was the same. The railroad asked for time to study the plans submitted by the Department of Public Works and compare estimates of cost, using the same basis of cost as the railroad

## Naval Reduction Stressed by Dawes And Mac Donald

Dawes Attacks Practice of Leaving Disarmament Up to Experts Whose Prior Interest Was Naval Maintenance—Mac Donald Pays Tribute to United States.

London, June 19 (AP).—The foundation of an international conference on naval reduction was laid in speeches last night in London and at Lissieuxmouth, Scotland, by Ambassador Charles G. Dawes and Prime Minister Ramsay MacDonald.

The speeches left no doubt the next move to bring about the conference. In one sense they were couched in very general terms but in another they left no doubt as to the imminence of negotiations for naval disarmament in which every nation concerned may participate.

The feature of the two addresses was not their forecast of a naval reduction conference—which was expected—but the solid attack delivered by General Dawes at former practice of leaving naval disarmament problems up to naval experts, whose prior interest, he charged, was naval maintenance rather than naval reduction.

The prime minister's address was made before the Lissieuxmouth town council, most of it dealt with local matters but a carefully prepared section mentioned the visit of Ambassador Dawes to Forrester last Sunday.

Anglo-American Conversations. The prime minister stressed the cordiality of their discussion and then he said: "As to the world wide purpose of what are known as the Anglo-American conversations, I hope that neither the large states nor the small ones shall have any doubt that they are not exclusive. They are inclusive."

"The mighty republic across the Atlantic will enter into no European entanglements or alliances. But no one should suspect that it will decline to serve the common interests of peace and democracy. There are obstacles to be surmounted, differing interests to be reconciled, some historical inheritances to be soothed and rivalries which are legitimate to be confined to their proper channels."

"That is the glorious task the happy conversations which the American ambassador and I have opened up, and I would pray the whole nation, irrespective of party, to share helpfully in our labors, to give us its confidence and to enable us to carry the work to a successful conclusion."

Naval Reduction Is Logical. The ambassador's speech was made before a distinguished gathering in his honor at the Pilgrim's Society.

It was his contention that naval reduction was the logical sequence to the Kellogg anti-war treaties and he mentioned the huge financial burden the carrying out of present naval building programs would place upon nations.

General Dawes then went at length into the roles played by financial experts in the reparations and similar conferences, and developed the proposition that whereas they were necessary to the success of those conferences they would impair rather than aid progress if they played similar parts in a naval conference.

The financial experts would seek a workable financial arrangement, he declared, whereas the naval expert had for his first thought maintenance of the navy of his own country best to preserve its combative values against the navies of other countries.

Think in Terms of Victory.

"The proper pride of a naval officer's life is his navy," the Ambassador said. "His whole professional career impels him to think of the navy only in terms of a victory."

"If naval experts rise to a proper sense of their responsibility," he added, "the use by statesmen of their yardstick will not be one which will invite peril from those extreme pacifists and extreme militarists who form the lunatic fringe."

"I wish to say frankly that from a commission of naval experts of the respective nations meeting together and called to evolve a final definition of a Naval yardstick I personally should expect a failure to agree."

He referred to the 1927 Naval conference at Geneva, saying "It should not be looked upon as a failure of individuals but on the method under which they function. . . . the great overwhelming soul satisfying fact about it is that the British and American people are a unit agreeing that whoever was responsible a mistake was made."

## Truck Load of Welcome For Dr. Lacquer Thinner Voss on Return And Still Found From Trip Abroad

Agents Follow Truck to the Town of Gardiner Where They Discover 2,000 Gallon Still—Men Disappear in the Woods.

Federal agents from the New York district were attracted to a truck load of lacquer thinner which they discovered loading and followed the truck as it drove north. The trail led to Ulster county where the driver of the truck proceeded to the Robert Deyo farm in the foothills of the Shawangunk mountains in the town of Gardiner, right under Minne-waska. There the truck stopped before a barn on the premises. The agents believing their long trail had ended appeared and summoned the men on the truck to halt but it was only a warning for a stampede. The men disappeared in the woods and left their truckload of thinner for the agents.

An investigation of the premises disclosed a 2,000 gallon still in an old barn. There were 40 drums of thinner each containing 53 gallons which was to be cleaned of its poisons and sold for drinking purposes to the unsuspecting thirsty public. A large number of 5 gallon cans for the cleaner product were discovered and the still was found to be a large one which had been used for cleaning poison lacquer thinner. Agents estimated the plant worth \$15,000 to \$20,000. No prisoners were taken but the plant was destroyed.

## Coast Guard Rescues Skipper

Cape Lookout, Oregon, June 19 (AP).—Captain Louis Johnson, skipper of the wrecked freighter Laurel, was rescued by a coast guard power boat at 8:30 a. m. today.

Captain Johnson, who hoisted a white flag yesterday as a signal that he was ready to leave the battered after-section of the vessel which broke in two Sunday when it ran aground off the mouth of the Columbia river, was awaiting the rescue boat eagerly.

As it drew up under the stern he climbed onto a boom and slid down a rope into the launch.

The coast guard boat, breasting great rollers in bucking its way through the surf from Cape Disappointment to the Laurel, effected the rescue in less than five minutes.

Captain Johnson refused to leave the wreckage Monday when the last member of the crew were removed by coast guardsmen. Wearing a life belt, he remained alone on the stern section of the ship until the pounding seas threatened to complete the destruction of the hulk. Rescuers were forced to wait until this morning before venturing out, although the skipper stuck the white flag, a tattered rag, late yesterday.

## Local Cases In Federal Court

At the closing session of the special term of federal court in Poughkeepsie on Monday two Ulster county cases were disposed of.

Frank McMullen, Pleasantview Hotel at Marlborough, was given four months padlock of premises and personal injunction. He was represented by attorney John M. Cashin.

Harry Weston, of Chateau, Lake Katrine, case dismissed without prejudice. Attorney Cashin represented him.

## City Officials Will Cooperate

Albany, N. Y., June 19 (AP).—President Hoover's appeal to communities along the Canadian border "to help the Treasury to prevent the systematic war being waged by international criminals against the laws of this country" caused considerable surprise in some quarters of the borderland.

However, officials of cities along the international line, as well as in many others in northern New York, quickly promised cooperation.

## HUDSON FIRE CHIEF HAD HIS PLACE PADLOCKED

Louis Sacco, chief of the Hudson fire department, on Monday in federal court in Poughkeepsie was ordered placed under a personal injunction restraining him from ever again selling liquor, and his property at 17 North Front street in Hudson was ordered padlocked for nine months. John J. Moy, Sacco's attorney, consented to the padlock but vigorously contested the personal injunction.

Hundreds Reported Perished.

Silchar, Assam, Cameroons, West Equatorial Africa, June 19 (AP).—Hundreds of persons are reported to have perished throughout this district as a result of unprecedented floods after heavy monsoon rains. Ninety per cent of the cattle in the district have been destroyed and half the houses washed away. This town is under water, except for the cantonment, where 15,000 people have taken refuge.

## Heat Toll Eleven Defendants Plead In Last 24 Hours, Guilty, Sentenced No Relief in Sight In County Court

Bloomsburg, Pa., Reports 103 Degrees, Highest Temperature For the Day—Many Heat Prostrations Reported in Addition to Deaths—Record Temperature in Many Places.

New York, June 19 (AP).—With no immediate prospect of relief, the east today entered its seventh successive day of stifling heat with a death toll of eleven for the last 24 hours.

Many others died of prostrations while seeking relief from the oppressive weather at bathing beaches. Prostrations were numerous. It was the hottest day of the summer in most of the east and at some points the hottest June 18 ever recorded.

In New York city the temperature reached 93 degrees, the highest of the year and an all-time record for that date. Fifteen persons were prostrated but only one death occurred in the city.

Four other deaths, however, occurred in the Metropolitan area. At Newark, N. J., where the mercury reached 94, a fireman suffered a sun stroke and fell 20 feet to his death. Other heat deaths in northern New Jersey occurred at Wallkill, Westwood and Mountain View.

The highest temperature for the day was reported from Bloomsburg, Pa., where the mercury rose to 102 degrees. At Philadelphia, where the temperature reached 94 degrees, two persons were overcome and died. At Bellefonte, Pa., a bridegroom of only four days was overcome and fell to his death from a steam shovel and near York, Pa., a road worker succumbed.

Dress Demonstrator Falls.

At Pittsburgh a 13-year-old school girl while standing on a pedestal demonstrating a dress she had made fainted from the heat and fell from a third-story window. She was taken to a hospital in a serious condition. The temperature in Pittsburgh reached 92 in Harrisburg, 93 in Reading, 95 and 91 in City, 96.

The heat wave continued general throughout New England where two additional deaths occurred and more than two score were prostrated. The area of high temperatures also extended into upper New York state. Albany reported a maximum of 92 degrees.

Mercury Climbs Up-state.

Albany, N. Y., June 19 (AP).—Thermometers in eastern and northern New York started an upward climb today to what forecasters said would be a new high mark for the year.

Two hours after sunrise here the temperature was 74 degrees, one degree above the mark for the same hour yesterday. A light shower merely increased both the heat and humidity, dashing the hopes of city dwellers. Partly cloudy skies, scattered thundershowers, and some slight relief from the heat tomorrow was predicted by the local weather bureau.

"Warm" in Adirondacks.

The Canadian border country was within the heat belt, Malone reporting a temperature of 85 and predicting a much higher reading during the late afternoon. Residents of the high section of the Adirondacks, however, confined their complaint to "it's warm", saying a breeze helped matters.

Binghamton, on the southern border of the state, was watching the mercury creep up toward the 90-degree level.

## Rosenthal Heads Valley Firemen

Troy, N. Y., June 19 (AP).—Mark Rosenthal of Hudson was elected president of the Hudson Valley Volunteer Firemen's Association to succeed President William B. Martin of Kingston at the fortieth annual convention here today.

Other officers elected included: First vice-president, Allen D. Brown of Port Jervis; second vice-president, Edward Cinnamon of Rensselaer; treasurer, Andrew J. Murphy of Kingston; secretary, Chris W. Noll of Poughkeepsie; director, Frank E. Wiley of Suffern.

Rensselaer was selected for the convention site next year.

## Negligee Outfits of Oriental Type

Satin, Brocade, Velvet  
in Tailored Lines; Sheer  
Materials Used.

Great variety is shown in the collections of negligees, notes a fashion writer in the New York Times. They range from plain and elaborate, and from simple and sophisticated styles to suit individual taste. There are negligees of silk, satin, brocade and velvet, and of tailored lines, others of sheer materials upon which lace, embroidery, or marabout is lavished, and many of strictly simple lines. Gowns of this last sort, worn for boat and travel and for utility at home, are popular because they are usually made of the tub silks, crepes or light satins and are easily cared for.

Pajamas are steadily becoming more fashionable. Many of the new ones are of such smartness that they may be worn for almost any other than a formal occasion. They are in a wide variety of colors, conventional and novel, bizarre, oriental, classic or modernistic. The Chinese coats, which first inspired the idea of this picturesque costume, form a part of many lovely pajama ensembles. They are made frequently of durable Chinese damask in blue, ivory, pale gold or green, and are finished with only "frog" fastenings, others with embroidery that forms a border or an all-over, wide-spaced conventionalized flower pattern. Such coats are to be worn always with trousers in plain colors, with perhaps just a cuff band of embroidery at the bottom.

Gay Colors Are Liked. Among the unusual designs in pajamas is one ensemble in which the set is made of crepe de chine with brown and yellow checked pattern, ordered in brown crepe, which is particularly fashionable this season, and the blouse and trousers are of the same material in a warm yellow. Another set has a coat of brocade cloth of gold and a pajama suit of black satin, unrelieved by any trimming. Some ultra-smart all-black suits, either colored and mannish or soft and feminine, are shown in almost every collection.

Among the most engaging pajama ensembles presented this season are those from Mary Novitsky. Each model has a distinctive design. One, inspired by oriental tradition, is made of crepe, with a coat of three separate layers, dark blue, beige and light red, worn with plain beige trousers. A fantastic little suit has a coat of dark blue crepe scalloped around the bottom, with a large bit of crepe applied on the inner side of each scallop in alternating colors of green, blue and red. The set lining, blouse and trousers are made of crepe, polka dot print in blue and red on beige.

An elaborate suit is made of light chausseuse crepe embellished with velvet flowers in modern form and colors. An unusual combination of preventive line with nasturtium colors in diagonal

Tuck-in Blouse is Used in Pajamas of Nasturtium-Colored Crepe.

How is shown, and another has a coat of emerald green velvet, with blouse and trousers of crepe in lighter shades of green.

Pajamas for spring and summer light wear are made of the printed satin, nylon or crepe, the smart models frequently having trousers of a material in a plain color and blouse of printed. Chinese crepe has been found by one couturier to make lovely, comfortable suits.

Many artistic color combinations are used in pajamas of this type. One with lavender trousers has a green blouse; another with blouse of corn yellow has trousers of Delft blue, and third red trousers appear with white or cream blouses.

Cut as Mandarin Cloak. One three-quarter-length coat of peach satin cut as a mandarin cloak presents the keynote for a smart ensemble. It has heavy-thread crew neck, applied ten inches deep around the bottom and on the sleeves,

which are quite wide at the hem. A few little frills are sewn into the front at each shoulder and a slender scalloped line of the lace is used to finish the neck and open edges of the coat.

With this modish garment comes a nightgown made also of the satin in the same shade, with deep oval neck bordered with lace, which has a narrow ribbon tied about the waist. Just the right touch is given this negligee set by a pair of gilt kid mules, perfectly plain, with heel straps.

Another ensemble in the same style, which is proving to be one of the successes of the season, is done in striking contrasts of black and white. White crepe is used for the coat, on which there is a deep border and scalloped edgings of black chautilly lace.

Pajama Suit With Triple Coat of Beige, Black and Scarlet Crepe.

The same lace is introduced also at the neck and in motifs on the front of the nightgown.

Negligee Ensemble Popular.

The negligee ensemble grows more comprehensive and in the latest collections includes entire sets of undergarments, chemise and panties, or combination step-ins and brassieres; and, in some of the sets of American design, the color scheme and style are repeated in the girdle, garters, stockings and boudoir slippers.

These are highly individualistic and the variations are countless. In a complete bridal outfit offered in a prominent New York shop, the negligee coat, nightgown and underwear to the last item are of ivory white crepe de chine, with tiny nosegays of Dresden flowers on each garment. This outfit is duplicated in an enchanting combination of pale blue, with small pink roses and olive leaves, and in maize with embroidered floss violets.

Lace is profusely used to elaborate many of these ensembles of soft crepe and satin, but some are shown with the tailored finish throughout. In these, two colors or shades of a color are combined. An ensemble of flesh pink crepe is finished with wide bands of the same, piped with pale green. Another in pale rose has wide revers on the coat and deep cuffs of a deeper shade.

Reversible negligees are one of the novelties of the season and have an appeal quite irresistible because of their utility. They are cut full length and simple in line. The sleeves are long and comfortably wide, and the robes are to be held about the waist with ribbons pulled through slashed openings and tied at the side.

Color combination possibilities are almost unlimited. One model has black chiffon satin on one side and chartreuse on the other. Another is in Delft blue and rose pink, and one more, delicate is in chartreuse and white. Corn yellow and lacquer red are combined in a striking model.

In Crepe or Satin.

The evolution of the quilted lounging robe is illustrated in some elegant models of fine crepe or satin in beautiful shades of apricot, peach, rose, turquoise and green, from delicate sea foam to jade. Designs are gracefully sketched on them with flows and metal thread, and deep collars and cuffs of heavy lace and embroidered batiste are worn. The garments are cut like Chinese coats, but longer.

A negligee of light beige satin which might easily be converted into an informal dinner gown is untrifled from neck to hem, and its only ornament is a cluster of white gardenias placed at one side where the skirt is caught up to form gentle lines of drapery. Another model of brown crepe has collar and cuffs of ecru lace, is lined with lemon yellow, and is tied about the waist with a loosely knotted cord.

Two negligees made for the troupe of a bride are picturesque. One, of turquoise satin, has a slight train and is fastened at one side with a turquoise and silver buckle.

With modernistic art entering so much into the various types of wearing apparel, it is only natural to expect its influence in accessories for the boudoir. Now it is seen in the new mules, which are designed for wear with the hostess pajamas. They are made up in various colors, so combined that a striking modernistic effect is achieved.

## Market for Fruits And Vegetables

New York, June 19 (AP).—(State Department of Agriculture and Markets).—Receipts of Orange county Big Boston lettuce were more liberal on the wholesale district today. Prices averaged slightly lower. Demand was moderate. Crates of 24 heads jobbed out within the range of 15 cents to \$1.75, principally \$1.25-\$1.50. One year ago Orange county lettuce sold at 50c-\$1.25.

The tone on strawberries was irregular and weaker again today. Offerings varied greatly. Quart baskets from the Hudson valley peddled out at 10c-25c, very rarely any higher.

Strawberry shipments for the whole country to June 15 totaled 16,522 carloads.

Trucked in supplies of celery from Orange county, New York, were moderate. Prices were barely sustained at bunched stock, but tended downward on shipments in the rough. The demand as a whole was generally slow. Celery in the rough packed in two-thirds crates of about seven and eight dozen stalks, whole-saled at principally \$9.00. Business on bunches of one dozen stalks was 75c-\$1.50.

Scattering arrivals of Hudson valley sweet and sour cherries sold at irregular prices due to the great variation in quality. Four-quart baskets of red sour cherries jobbed out at mainly 75c and red sweet cherries at \$1.00.

Arrivals of southern potatoes were moderate. The market situation was without decided change and values remained about unchanged. Virginia No. 1 Cobblers sold at \$3.50-\$4.00 per barrel. Some fancy reached \$4.25 and some off-grade sold down to \$3.00.

Eight second-early potato states have an estimated crop of only 11,593,000 bushels this year or 6,400,000 less than last season. These are lighter average yields, as well as decreased acreage. All states show a marked decrease, which should leave the potato market in better condition than last June. New Jersey likely will have only 5,800,000 bushels, compared with 7,200,000 in 1928.

Gooseberries have commenced to arrive sparingly from the lower and upper Hudson valley. Quart baskets peddled out at 15-25 cents.

Our Growing Population.

America Has Voted

# YES

... on the World's First Straight-Eight under \$1000

"YES" because the Roosevelt has the right platform to win the greatest and most motor-wise nation on earth... It is the plain, easily understood principle of giving the most for the money.

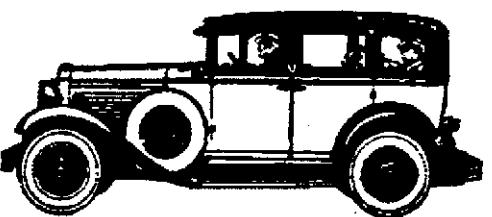

—a car that gives you a full-sized 70-horsepower straight-eight motor rather than a six

—a car that has characterful appearance of its own making

—a car that is husky and sturdy; that can go into the oil fields, deserts and mountains and take a real beating

—a car so "tight fisted" in economy that you wonder what it runs on

—a car that no matter what you want it for is always ready to serve faithfully and adequately, out in the woods or in front of the Ritz.

May we show you what we really have in this Roosevelt at \$995?

A Marmon-built straight-eight for every purse—Roosevelt, \$995; Marmon 68, \$1465; Marmon 78, \$1965. Prices at factory. Group equipment extra.

Grandpa was attending a party. During the evening his flapper granddaughter came up to him and asked how he was enjoying himself. "Fine," replied the old man. "I'll bet you never saw dancing like this when you were a young man," prattled the girl, artlessly. "Just once," replied grandpa, reproachfully. "But the place was raided."

If money means success, let us compare on the tombstones. He left \$100,000.

A husband never looks so good to a wife as when he's about to be bumped away from her.

People are too trifling to take preventive medicine. Why doesn't a paternal government slip it over in the gum on postage stamps?

**He Almost Did.**  
It was on a street car that a buxom woman was standing in the aisle hanging to a strap. In front of her sat a rather cantankerous-looking man, apparently absorbed in a newspaper. The car stopped suddenly and she trod sharply on his foot.

He looked up over the top of his paper with anything but a happy expression.

"Madam," he said, "will you please get off my foot?"

"Put your foot where it belongs," she replied shortly.

"Don't tempt me, madam, don't tempt me," he countered.

You can usually tell a hick by his attempts to define a hick town.

"Have you ever loved before?"

"No, John. I have often admired men for their strength, courage, good looks, or intelligence, but you, it is all love, nothing else."

Again Kingston's laziest man has been found. When he goes to the post office he waits for some other to come along and push the revolving door so he can slip through without any exertion.

An Englishman and a Scotchman thought they would have a little fun with an Irishman. The Englishman said:

"If I weren't English, I'd rather be Scotch."

Then they both looked at Pat and laughed. The Scotchman said:

"If I weren't Scotch, I would rather be English."

And again they both laughed.

"Well," said the Irishman, "if I weren't Irish, I would be ashamed of myself."

The further a wild rumor travels the wilder it gets.

"Leading a blameless life won't keep a woman from being talked about," she remarked.

"No," he replied, "the only way she can prevent that is never to be absent from the sewing circle or card club."

Small Boy: Believe it or not, mister, I just fell out of an aeroplane.

The other night when Grocer Tompkins got home from the store his wife met him in the hall.

"Dear," she said softly, "you'll have to whip Tommy."

"What? Whip my boy? Not on your life!"

"But dear," wife went on, "you remember that can of molasses you brought home yesterday? Well, Tommy poured it all out—"

"What of it? I've got 50 more cans of that stuff on my shelves."

"I know dear. But Tommy poured the molasses into your new Sunday shoe."

"Two minutes later, Tommy and Grocer Tompkins were on their way to the woodshed."

**PHOENICIA.**

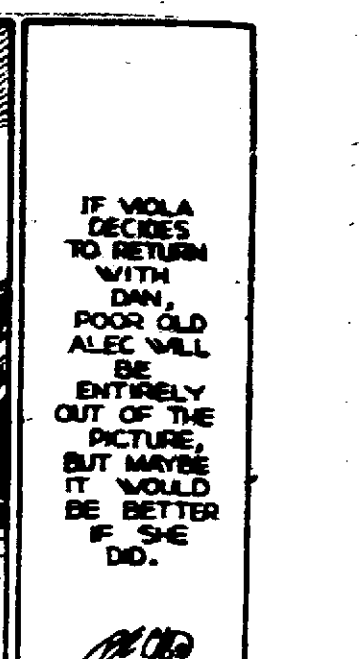

Phoenicia, June 13.—The Misses Grace Ahrens, Harriet Loomis, R. H. Longyear, Mrs. A. E. Loomis, Prof. and Mrs. Condon and Miss Betty, Mr. and Mrs. Edwin Davis and family and Robert Bishop were nicely entertained Wednesday evening at the lovely home of Mrs. W. Bishop at West Shokan Heights.

The Davis and Bishop homes are wonderfully located on the West Shokan Heights. Both overlook the reservoir with its ever changing shimmer of wave line beauty. Clumps of cedar and other trees stand as sentinels at the front and sides of the large lawns which team with lovely roses, lilacs and a great variety of other flowers. From the spacious porch a beautiful panorama of scenery meets the eye. One cannot describe the beauty when the moonlight falls in silvery lines over lake and hill. One finds a lovely flower garden inside where many potted plants of many kinds live up with their green foliage and clustered blooms of lilacs and begonia. A nice program of instrumental and vocal music was rendered. The duets played by Mrs. Bishop and Mrs. Davis brought much applause. After the program a delightful repast was served. The evening brought back to the hostess the sweet memories of the past in the neighborhood she once knew in the pretty West Shokan village home life, when all were neighbors and friends. Before the guests said good night all went out on the porch and sang several hymns, the

## Woodstock Art Season Opens

First Exhibit of Season Opens Saturday at Woodstock Art Gallery—Large Attendance Expected—Several Improvements in Gallery.

(By F. G. Clough)

The actual art season at Woodstock can be said to open formally on Saturday, June 22, when the Woodstock Art Association opens the doors of the local gallery with a general exhibition of painting, sculpture and craft work. The first exhibit of the 1929 season will remain hung for the public from June 22 to July 10. It is expected that there will be an unusually large showing of artists who are at the Woodstock colony at this time. The winter has been a very prolific season for the Woodstock group of independents, many of whom have won laurels in exhibitions about the United States during the past six months.

The Woodstock Art Association has made several improvements in their gallery rooms. For one thing, a diffused system of lighting has been installed in the large exhibition room; there has also been arranged a circulatory method of ventilation which will carry out the warm air, thus leaving the galleries cooler than was possible before.

At a recent meeting of the board of directors, Carl Eric Linden was elected honorary president of the Association in place of the late Birge Harrison. H. L. Jenkinson was elected honorary vice president. The exhibition committee this season consists of Arnold Blanch, Charles Bateman, Hermon More, Conrad Cramer, Arnold Wiltze, Harry Goultier, Alexander Archipenko and Jo Rollo. The craft committee consists of Carl Walters and Miss Mary M. Wilson.

On the board of directors is Alice Wardwell, Eugene Speicher, Frank Swift Chase, Paul Rohland, Judson Smith, Neil McD Ives, Carl Eric Linden, Conrad Cramer, Henry Lee McFee, Carl Walters, Henry Mattison, Rudolph Wetterau, Henry Billings, Charles Rosen, John Carroll, Arnold Blanch, Charles Bateman, Hermon More and Orville Peete.

Miss Mary Moultrie Wilson will act as curator again for the season's exhibitions, of which there will be five, carrying the gallery season well toward the first of October.

This season a change has been made; there will be commencing July 13, for the second show, a special exhibition of small paintings, water colors, drawings, etchings, lithographs and crafts. This "small pieces" show was formerly held at the end of the season, but friends and visitors asked that the show be offered during the height of the summer season, as many were anxious to purchase smaller pieces to take away with them from the art colony.

It is expected that a large number of Kingstonians and visitors from many places will visit the gallery on Saturday to see the first show of the season.

The Woodstock Bulletin says:—

terily of this group of artists—nowhere in the United States can there be found a more vital, more important, or more creative group of artists than those who exhibit at the Woodstock Art Gallery.

This first exhibition will remain open daily from Saturday, June 22, until July 10.

### Paint Is Poor Cow Food.

Paris, Ill. (AP)—Burrer Curtis painted his barn a nice bright red. Four cows and a calf watched appreciatively and decided this work was good enough to eat. They will eat no more paint—or anything else.

### CREEK LOCKS.

Creek Locks, June 18.—Mr. and Mrs. Harry Nelson gave a good comradeship party at their home last Saturday evening. The guests had a wonderful time dancing, singing and enjoying the radio. At midnight refreshments were served. Among the guests were Mr. and Mrs. Joseph Lullman and family, Mrs. Frank Wolf and Louis Mattel, Mrs. Frank Kiefer of Brooklyn and Fred Schmitt of Howard Beach, L. I. Mrs. John Constant and little daughter, Margie, left on Wednesday for her home in Hoboken, N. J., to spend a few weeks with her sister.

Dick Lowery's strawberries are ripening fast. He sells them as fast as he picks them.

Mrs. Sigmond Southol is making fine progress in learning to drive her car.

Mrs. Jacob Weimar left on Thursday on the New York bus to spend a few days with her sister at Garden City, L. I., and to attend the wedding of her niece.

All the poultrymen who received their baby chicks from the Home-Land Farms, are very much pleased

with them. They are all healthy and sturdy and give promise of being profitable.

Ernest Hochstadter, who makes his home with the Sagar family, is critically ill and under the care of Dr. L. Rymph. His friends hope for his speedy recovery.

Mr. and Mrs. Joseph Kostecki spent a social hour with Mr. and Mrs. Andrew Hofman on Wednesday evening.

Mr. and Mrs. Alfred Shatzkes of Cypress Hills, L. I., after visiting Canada and New York state, are spending the balance of their honeymoon with Mr. and Mrs. Andrew Hofman.

The P. T. A. will hold a special meeting on Friday, June 21, at 8:15 p. m. All members are asked to please make an effort to be present as there will be important matters to discuss.

Mrs. Richard Sagar entertained her sister, Miss Rachel Deming, of Hunter, and her niece, Miss Stella Ticefelt, of Kingston recently.

Mrs. J. Perre and son, John, who bought the Hardenburgh home, spent a few days with Mrs. Jacob Weimar prior to moving into their new home.

The Yarnetti boys of Bloomington were through here selling strawberries this week.

H. Dungee, the salesman for the Kingston Lumber Company, was in this locality soliciting orders for lumber and paint.

Mr. and Mrs. John J. Hunter and little son, Joseph, of Brooklyn are spending two weeks vacation at the "Idle Hour."

The Misses Mary and Nellie Regan of Kingston spent the week end at their home here.

The Swedish language is taught at 14 institutions in eight different countries.

## WHAT IS CHRYSLER ENGINEERING?

It is a matter of opinion as to who did most in creating the automobile, but it is a matter of fact that Chrysler has done most in modernizing it. Some of the most vital and thrilling chapters in the history of the motor car have been written by Chrysler engineers.

Chrysler engineering, analyzed in simple terms, is a combination of far-sighted vision and resourceful genius that succeed in accomplishing inspired improvements. In one word, Chrysler engineering is... Progress.

This is not a vainglorious gesture—it is a statement of plain, hard-shell fact fully borne out by the following partial list of advancements which Chrysler has pioneered or developed:

Hydraulic Four-Wheel Brakes  
Rubber Shock Insulators  
"Silver-Dome" and "Red Head" High-compression Engines  
High Turbulence Offset Combustion Chamber

Fully Counter-weighted 7-Bearing Crankshaft  
Iso-therm Invar Strut Pistons with Tungsten Rings  
Non-wearing Chilled Cast-Iron Face Tappets  
Rubber Engine Mountings  
Modern Plain Tube Carburetion—with Positive Pressure Pump Acceleration and Semi-Automatic Choke Valve  
Indirect Lighting of Instrument Panel  
Light Controls on Steering Wheel  
Body Impulse Neutralizer  
Small Diameter Road Wheels  
Modern Roadster Body Type  
Beaded Belt Moulding and Modern Color Treatment

The Chrysler you buy today is the direct beneficiary of all the progress that Chrysler engineering has made in the five years of its brilliant history. Let us give you a demonstration.

## STONE RIDGE.

Stone Ridge, June 19.—The mem-  
bers of the Sunday schools are asked  
to reserve the coming Saturday for  
a day of outing. Under the auspices  
of the Accord district, of which the  
schools in Stone Ridge are a part,  
a picnic will be held at the Millhook  
picnic grounds at Accord. Teachers,  
officers and pastor are urged to be on  
hand. A day of real pleasure will  
be assured all who attend. Those  
who attend are asked to bring their  
lunch. Refreshments will be on sale  
at the grounds.

Members of the choir of the Re-  
formed Church are reminded of the  
regular weekly practice to be held  
at the parsonage on Thursday eve-  
ning at 7:30 o'clock.

Those interested in a day of in-  
spiration and uplift will be given  
such an opportunity on Friday of  
this week. The Classis of Ulster will  
hold their second annual Mission  
Festival at Mt. Marion. The ses-  
sions will begin at 10 a. m. and 2 p.  
m. daylight saving time. The Ladies'  
Aid of the church at Mt. Marion will  
sell lunches. The offerings of the  
day will be for the Foreign and Do-  
mestic Mission Boards.

The topic chosen for the morning  
theme at the Reformed Church for  
Sunday is, "The Unstained Life."  
Sunday school will convene at 11:45  
o'clock under the leadership of L. D.  
Sahler. The Christian Endeavor will  
meet at 6:45 o'clock. The topic for  
discussion will be, "Jesus Teaching  
Us Self-Control." Everyone is wel-  
come to attend any or all of these  
services. L. D. Sahler will lead the  
C. E. meeting.

Mr. and Mrs. William Roosa left  
on Tuesday morning for a few days'  
trip, their destination being Sacra-  
use. They will stop over at Utica to  
visit their son, Elmer, who is work-  
ing for the Holland Furnace Co.

The picnic given the children of  
the school on Saturday last was a  
great success. The rain attempted  
to dampen the spirits of the chil-  
dren and the members of the P. T.  
A. but when the time arrived to  
start the festivities the sun was  
shining and everything was as  
ordered. Much thanks is due the  
several committees who planned and  
made the day so joyful, also to the

## Greatest Spring Sales in History

PACKARD sold more cars in the  
month of May than in any May in  
the company's history. April before  
it was the greatest April that Packard  
has ever enjoyed.

After all, the motoring public is the  
final judge of merit—and the greatest  
spring business in Packard's history  
can only be a tribute to the quality  
and reputation of Packard cars.

Even more important is the tribute  
to Packard supremacy found in the  
records of Packard ownership.

Two-thirds of all Packard Standard  
Eight business comes from those  
who give up other makes of cars.  
This is most significant when country-  
wide records indicate that ninety-six  
per cent of all Packard owners remain

in the Packard family—replace their  
old Packards with new ones.

If you are considering the purchase  
of a new car, investigate the three  
Packard Straight-Eight lines—Stand-  
ard, Custom and De Luxe. Prices range  
from \$2275 to \$5985 at the factory.

Our facilities for handling used cars  
are excellent. When may we appraise  
your present car and put a Packard  
Eight at your disposal for a demon-  
stration drive?

If you prefer to buy out of income, you  
will find the Packard Payment Plan  
most attractive. Many take possession  
of their new cars without any cash  
outlay—because the used car allowance  
equals or exceeds the down payment.

Clean those greasy,  
dirty hands!

Use Melo. It cuts grease, dissolves  
dirt. Makes soap and water do more  
work. It cleans pots and pans too.  
Freshens burnt cooking vessels.  
Brightens silverware.

In the laundry Melo is indispensa-  
ble. For before you can clean any-  
thing you must have soft water.  
And Melo softens water. Scum does  
not form. Then clothes wash white.

Melo prevents the dirty ring from  
forming around your bathtub. It  
saves soap, too, from 1/3 to 1/2 the  
amount generally used. Melo can be  
purchased at your grocer's. Get a

The gay combine of red and yellow is one of the season's most telling points, all shades of yellow and all shades of red being approved, and in some notable instances combined. Yellows blending into greens and yellows with a strong greenish tinge are admitted as second to none in the summer color preference. Effective introductions of black lace on white or color are beginning to be recognized as of current importance all of which seems in sympathy with a picturesque era of Spanish modes.

The opera pump remains the choice of the smartly shod, excepting for sports wear. Complicated strap effects have given way to them and whether in satin or crepe de Chine they are the evening preference just as in suede and kid they are the day time choice.

OUR DAILY PATTERN.

6089

A Stylish Frock.

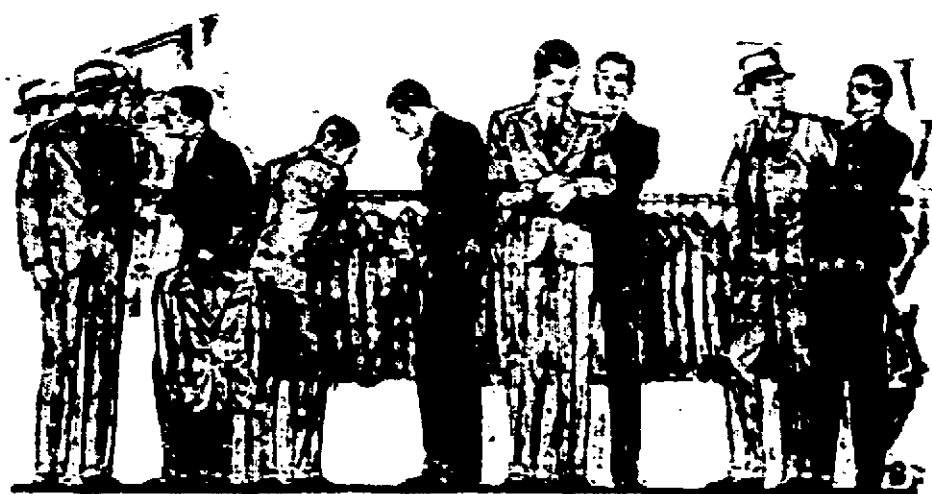

6089. Printed voile, figured silk, satin or crepe are excellent materials for this model.

The pattern is cut in 6 sizes: 34, 36, 38, 40, 42 and 44 inches bust measure. A 38 inch size size will require 1 yard of 32 inch material for the underbody and 3 1/2 yards of 39 inch material for the dress. For underlacing on the cascade plaits 1/2 yard 12 inches wide is required. The width of the dress at the lower edge is 46 inches.

A pattern of this illustration mailed to any address on receipt of 15c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion's smartest attire for sun-bathing... for active swimming... the new *Jan-tzen* by Jantzen! Permitting, with modesty, a maximum exposure of skin-surface to the healthful ultra-violet rays of the sun. Matching the sophisticated lines of a smart evening gown so that there need be no conflict between sunburn and social ambitions!

And best of all, a new and greater freedom of action for swimming, greater than that for which Jantzen is already famous. You swim gracefully with every muscle free. A Jantzen graces your body lightly, comfortably, smoothly... without a wrinkle. You leave the water as smartly clad as when you entered! This remarkable perfection of fit is due to the magic of Jantzen-stitch.

VISIT our showrooms and see a remarkable display in motor car color design—a variety so wide as to give almost individual distinction, at no extra cost. It is a new industrial achievement!

More than 225 different color combinations on various models were delivered last month by the Hudson Motor Car Co.

That is why, although nearly 200,000 Essex the Challengers are in service; there is a sparkling variety and individuality about each car, instead of the monotonous sameness expected in big production.

The tremendous buying swing to Essex the Challenger—with nearly 200,000 in service in five months—is the popular answer to

how it upholds its sweeping challenge to motorism.

Hydraulic shock absorbers and new type double-action 4-wheel brakes are standard—they do not cost one cent extra. The same with radiator shutters, air cleaner, windshield wiper, safety lock, chromium-plated bright parts. All valuable features—all features you want. Add up for yourself the extras Essex offers at no added cost and you will see above \$100 in extra value in those terms alone.

## don't let your "economy" come too high

The man who feels that he cannot afford to buy the Chrysler-built De Soto Six is perhaps the very man who cannot afford not to buy it. Obviously, if he buys a cheaper six he will do so entirely on the strength of its purchase price.

But purchase price is only one of the three major items entering into the expense of owning a car. There are also the costs of upkeep and of maintenance to be considered. The sum of these three actually represents what it costs you to drive.

De Soto Six is economical of fuel and oil. It will keep on running almost indefinitely with a negligible maintenance

expense—records of De Sotos that have gone over 40,000 miles prove this. Consequently, in the course of a few months, your De Soto Six will easily save the difference between its price and that of a car inferior in engineering, design and materials.

This purely dollars-and-cents reason for preferring De Soto Six can be supplemented by the self-evident fact that all the time you are getting more comfort, pleasure, safety and pride of ownership from this Chrysler-built six than a cheaper car could possibly give you.

It will cost you nothing to take a demonstration—and no obligations implied.

## 140 Indicted in Rum Conspiracy

New York, June 18 (AP).—Over 140 indicted today under federal indictment today accused of participating in the nation-wide conspiracy for the distribution of bootleg whiskey.

Special treasury agents said the conspiracy was the largest that has been uncovered, with ramifications in a score of cities across the country.

The defendants are charged with conspiring to violate the prohibition act and with violation of a federal law forbidding the attacking of spurious revenue stamps to containers of spirituous liquors.

Their stock in trade included everything needed to pack and label ordinary bottles of whiskey in imitation of the product of foreign distilleries.

This included shavings from the inside of whiskey barrels, used to favor synthetic liquor, bottles blown in imitation of the containers of widely-known distilleries, labels, wrappers, corks, cases and bogus internal revenue stamps.

Mrs. Anna Galpin was removed from 15 Elmwood street to the Kingston Hospital in an ambulance on Tuesday.

Miss Anna Hoffman, Vinces and friends sail for Europe on June 21 on the Coronia. Miss Vinces will stop at various places in England, Scotland, and will visit friends in London, expecting to be abroad practically six or seven weeks. This is the second time Miss Vinces has been abroad. Miss Vinces is a sister of Mrs. Roscoe Irwin of Washington avenue.

Nickolas R. Bouloukos of North Carolina is spending a few days in town visiting relatives among them Mr. and Mrs. John Stamatakis, Mr. and Mrs. John Stamatakis, Leo and Stephen Larios, Anthony and James Nekos, James Foundas, Andrew Bouloukos, Louis Coulos, Nick Poulos and family and Peter Conchunis. They are all former residents of the same place in Greece and each has prospered in business during the several years they have been in the United States, all being naturalized citizens.

## Financial and Commercial

New York, June 18 (AP).—Growing fears that the stock market has been temporarily over-bought as a result of the recent series of sharp advances led to extensive selling today, giving prices a fairly irregular appearance.

Pools conducted their operations with caution because of the difficulty in obtaining a public following and the increasing activities of bear traders.

They succeeded in marking up about a score of issues to record high levels.

Except for the increase from \$7 to \$11 in the annual dividend on William Wrigley common, and the publication of the weekly steel trade reviews, which showed that output was being maintained at a high rate, there was little in the day's news to influence the price movement.

## POPE'S APPROVAL NEEDED

## TO SETTLE CONTROVERSY

Mexico City, June 19 (AP).—The Mexican government and emissaries of the Vatican have agreed upon a basis of settlement of the Mexican religious controversy. Today approval of the Pope was all that was needed to make the agreement effective and permit an order returning the priests to Mexican Churches.

The settlement, as arrived at by President Portes Gil and Monsignor Leopoldo Ruiz y Flores, Archbishop of Michoacan, and Bishop Pascual Diaz of Toluca, with United States Ambassador Morrow as intermediary, does not involve constitutional changes, but is merely a broader interpretation of the religious laws and their constitutional background.

The agreement is similar, if not identical, to that reached last year in negotiations between President Calles and Archbishop Ruiz, which had their beginning in a secret meeting in the old fortress at San Juan de Ulua, island in the harbor of Vera Cruz. Vatican approval at that time was delayed until July the assassination of General Alvaro Obregon, president elect, with ensuing charges of Roman Catholic participation, complicated the entire situation.

## Society Notes

### Little Gardens Club

The Little Gardens Club will meet on Friday, June 21, at the home of Miss Anna DeWitt in Hurley. The inhabitants of our gardens will be the topic for discussion.

### Wright-Sampson

Freeman Wright of West Point, N. Y., and Miss Henrietta Sampson of No. 49 Murray street, Kingston, were married at St. Mark's A. M. E. Church parsonage by the pastor, the Rev. J. M. Proctor, on Monday evening. Lillian Russell and May Broadhead were witnesses to the ceremony. The happy couple will make their future home at West Point.

### Lamphear-Winchell

On Sunday afternoon, June 16, a pretty wedding took place when Miss Marjorie H. Winchell, only daughter of Mr. and Mrs. Alonzo C. Winchell of Lake Katrine, became the bride of Joseph F. Lamphear, son of Mr. and Mrs. Clarence Lamphear of Hurley avenue. The ceremony was performed by the Rev. Edmund P. Burke of St. Joseph's Church.

The bride was dressed in white georgette with picture hat to match and carried a bouquet of brides roses and maiden hair fern. The bridesmaid, Miss Helen Haver, a cousin of the bride, wore flowered chiffon with large picture hat. Her flowers were pink rosebuds. Christopher Lamphear, brother of the groom, acted as best man. Following the ceremony a reception was held at the home of the bride's parents, where about thirty-five friends and relatives were present.

The house was prettily decorated for the occasion. The young couple received many pretty and useful gifts. After a wedding trip to Connecticut and other points of interest, Mr. and Mrs. Lamphear will make their home in Lake Katrine. Mr. Lamphear is employed by the Endicott & Johnson shoe store of this city and both he and his bride have the well wishes of a host of friends.

### Donohue-Hover

The marriage of Miss Ruth Theima Hover, daughter of Benjamin L. Hover of Olive Bridge, and Clifford Donohue of Krumville, was solemnized Sunday, June 16, at 12 o'clock, at the Methodist Church of Olive Bridge. The ceremony was performed by the Rev. Orson O. Rice, pastor of the church. The bride was attended by her sister, Miss Blanche Hover, as bridesmaid, who wore a gown of sun-tan georgette and carried a bouquet of pink carnations.

Brookville, Ont., June 19 (AP).—In a heavy electric storm early today 17 head of cattle, standing under a tree on a farm in South Elmsley township, were killed by lightning. The loss was estimated at \$3,000.

## Testimony in Contract Action

Brought by Hood Farms, Inc., Against Miss Grace Van B. Roberts of Highland—Continued. Entered by Miss Roberts.

Chris J. Flanagan as referee appointed by the Supreme Court to hear and determine the issues in an action brought by the Hood Farms, Inc., against Miss Grace Van B. Roberts of Highland on Monday and Tuesday held hearings at the court house at which time considerable testimony was taken. N. H. Fennell appears for the Hood Farms, Inc., and Judge William D. Cunningham appears for the defendant. The action is one for breach of contract in which a counterclaim is entered by Miss Roberts.

Several years ago, according to the testimony, Miss Roberts, who conducts a dairy farm at Highland, decided to improve her herd of cattle and secured under contract from the Hood Farms, Inc., of Massachusetts a valuable bull which she brought to her farm at Highland. Under the terms of the contract it is alleged the animal was to remain on the Roberts farm and various conditions were to be carried out, among them the Hood Farms, Inc., were to receive a certain number of calves for a period of time. The animal was a high priced one and had been shown at many cattle shows and was considered a prize animal. A portion of the sum due the Hood Farms, Inc., was paid and then it was discovered, according to the defendant, instead of building up the Highland herd it is alleged the herd was seriously damaged, and finally the bull was shot.

Hood Farms, Inc., seek to recover for the unpaid balance due. Miss Roberts seeks to recover under her counterclaim \$25,000 damages which she alleges she suffered by reason of the damage to her herd of high grade cattle. The action is one for breach of contract.

## 400 AGENCIES BACK MOVE TO SAVE EYES

### Progress Made in Prevention of Blindness

New York City.—The last year has seen the most widespread campaign for the prevention of blindness in the history of America. It is announced by Lewis H. Carris, managing director of the National Society for the Prevention of Blindness, in making public the society's fourteenth annual report.

The movement for the prevention of blindness now has behind it not only the organizations built up for this particular purpose, but also the report shows, the medical profession, the field of education, organized labor, the safety movement, the professional of social work, federal, state and local governmental officers, and many groups of public-spirited private citizens.

Four hundred agencies are co-operating with the Society for the Prevention of Blindness.

"Men and women in every walk of life are now participating in the campaign to save the eyes of the nation," Mr. Carris said.

Two New Projects.

"During 1928 the National society undertook two new projects involving joint efforts. With the League of Red Cross societies, the National society undertook a study of international aspects of prevention of blindness, the report of which will be published in 1929 in English and in French by the League of Red Cross societies. The second project is an extensive co-operative educational campaign with the American Federation of Labor to reach 5,000,000 families of working men and women. In addition, it has continued its past co-operative relationships with scores of local and national agencies, realizing that the gospel of prevention of blindness must actually permeate the atmosphere in order that the responsibility of the citizen, the parent, the teacher, the doctor, the nurse, the illuminating engineer, the safety engineer, the worker, and the employer, all take their responsibility to prevent blindness and save sight."

Steady progress continues toward the society's goal of complete elimination of ophthalmia neonatorum, usually called "babies' sore eyes," as a cause of blindness, the report points out. The use of prophylactic drops in the eyes of babies at birth is now required in most states, and free supplies of the solution are furnished to midwives, nurses and doctors in 35 states. Entire eradication of this source of blindness—once the most prolific of all causes—is said to be scientifically possible.

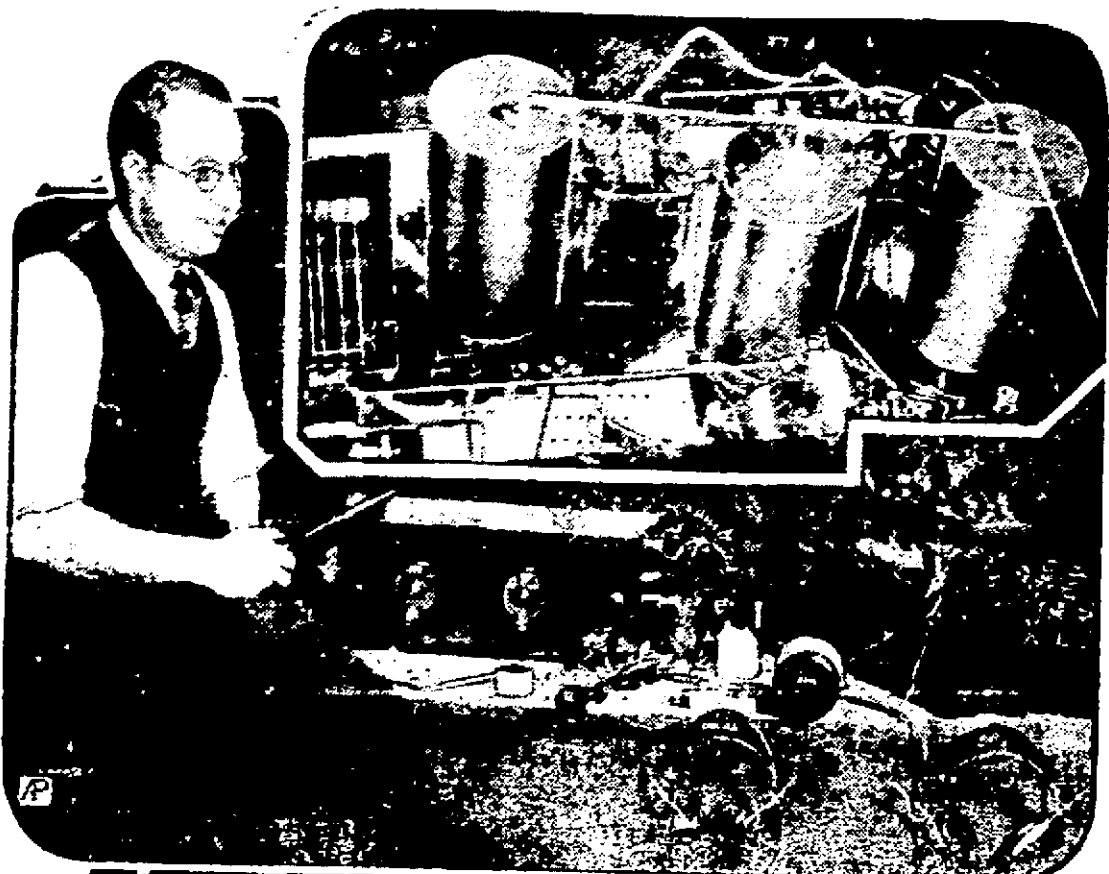

Use "Game" for Kids.

By means of a special "game" for preschool age children, the society is able to test, with some accuracy, the vision of children too young to read the letters on the charts used for adults, the report mentions.

Two classes for school children with seriously defective vision, started 15 years ago, have grown into 318 "sight-saving" classes throughout the country in a specialized field of education today, the report says. Through the use of large type books, movable desks, ideal lighting, and special teaching methods, children with little vision are not only given the same sort of education that children with full vision receive, but they are taught how to conserve their remaining sight. The society estimates that approximately 5,000 such classes are needed in the United States.

"Through a questionnaire addressed to industrial plants, the National society together with the National Safety Council endeavored to ascertain for the first time the instances in which eyes have been saved in industry through the use of mechanical safety devices," the report says. "The experience of 553 industrial plants employing more than 575,000 men and women, during the years 1926 and 1927, indicates that in the two-year period 2,731 men and women were saved from serious injury or total blindness in both eyes, and 4,654 were saved from serious injury or total blindness in one eye. Detailed information regarding this study will be available later. During the year 1928 almost 900,000 pieces of literature were circulated by the society."

## Experimenter Gets G5SW On Speaker Daily

Everett Briggs of Brockton, Mass., and the receiver for which he has secured G5SW, England, over a period of three months. The interior of the receiver is shown.

Brockton, Mass. (P).—Consistent loudspeaker reception of G5SW in England on a homemade short wave receiver over a period of three months is the claim of Everett Briggs.

Each afternoon Briggs comes home from work to retire to his "dugout," as Mrs. Briggs calls it, in the cellar of his home. There, among an array of batteries, tubes, coils and sets, he listens to broadcasts from England. An extension speaker of the dynamic type in the living room furnishes the programs to the family, and to neighbors when the windows are open.

Confirmation of his feat has been received by Briggs. He cabled the British Broadcasting Company, asking if his reception could be acknowledged over the air. The chief engineer, replying by mail, wrote it was with "deep regret that they could not do this as it would set a precedent."

Other stations in remote parts of the world have been tuned in on the set and heard through the loudspeaker. The best distance was 210 in Melbourne, Australia.

Radio is not a new plaything to Briggs. He built and operated one of the first radio receivers here.

## Where Accidents Happen

Our psychology has usually located motor accidents on curves. So we are cutting down the inside of the curve to be able to see around the corner, says the Los Angeles Times. We run our stripes on the highway around the curve and then omit them on the straightaways. We even erect signs at the approach of an elbow. And now it develops that out of 3,439 accidents for the month of October on California highways, 2,500 occurred on straight roads. While we assess our troubles against one place, they turn up at the unexpected spot. There may be more miles of straight streets and roads than curves. However, this offers but partial explanation. The bathtub seems to be more treacherous than the beach. The stepladder is more perilous than the mountain trail. The unloaded gun claims more casualties than the loaded one. So the straight street yields a larger harvest of victims than the crooked. Where man is strong, there he is weak. The heights of Quebec were taken on their strongest side. We have a tendency to withdraw our guards from the point of greatest strength. This may be the secret of the straight road's larger list of casualties. When we are off guard then are we easy picking.

A police dog in Atlantic City has been given the choice of reform or death because its logic leads him to bite anyone who wears furs. This practice has brought him into conflict with the law, even though that institution overlooks human errors less reasonable and more dangerous, says the Baltimore Sun. This dog that bites a person who smells provocatively like a wolf, or a muskrat, or a skunk, as the case may be, is brought to trial and found guilty, and yet the hunter who shoots another man because he thinks he looks like a deer is unpunished. In other words, the law allows men to exhibit poorer judgment than dogs.

Some friend of Marshal Foch quotes him as having desired, and even planned, that he and President Von Hindenburg might meet, not as a Frenchman and German, but as two military technicians to compare notes. It is possibly a true report, says the Baltimore Sun. And it suggests vividly the triple aspect of war—the suffering and horror of it, the devotion and assuring courage which it calls forth, and the earnest study and skill which it demands of those who practice it as a science. No wonder that Foch is said to have wanted to speak of the technical side of it. It is the one part of it which can be discussed without emotion.

An interesting review of some recent developments in radio, by a writer in Nation's Business, reveals that the radio, among other things, has accomplished these results: It has cut down the suicide rate. It has put many rural churches out of business. It has changed the complexion of politics. It has worried the managers of big prize fights. It caused the recent boom in stock market speculation and it has revolutionized the old-fashioned Saturday night. Quite a varied list of accomplishments, to which you can add any others you see fit.

Who fired the final shot of the Civil War? Benton Queen of Weston, N. Y., says he did at Appomattox Courthouse, Va., April 9, 1865.

## Doctor on Job at 90; Likes Modern Styles

Newcastle, Ind.—This is the world's "grandest age," according to Dr. Edward W. Goodwin, ninety. Henry County's oldest physician. He adds: "The costumes today are the most sensible a woman ever wore, from every viewpoint." Doctor Goodwin is still engaged in his profession and drives an automobile in making calls.

## Fifth of Air Pilots Live in California

San Francisco—California had 1,033 aircraft pilots licensed to fly by the federal government, or nearly one-fifth of all licensed pilots in the United States on April 1, according to an analysis of department of commerce records, announced by Pacific Flyer, coast aeronautical journal.

## Importance of Nonsense

London.—Nonsense is an exceedingly important element in life and people lacking in nonsense are not quite right, according to J. Dover Wilson, professor of English in London university.

## New System at Kingston Theatre

During alterations which are now in progress the Kingston Theatre on Wall street will remain closed. It is expected that the alterations, furnishing and installation of a Western Electric sound system will be completed and the theatre opened on or about July 1 when feature pictures and big run pictures will be shown.

For some time the Kingston Theatre has been open on Friday, Saturday and Sunday when regular programs were shown. This policy will be discontinued beginning this week and the theatre will remain closed while the changes are going on. The work of installing the sound system is about completed. It is expected that about \$25,000 will be expended in the theatre for the new talking system, redecorating, installation of new draperies, carpets and a new curtain.

## Matters Before The Surrogate

The will of Samuel Lindenbaum which has been filed for probate in surrogate's court, disposes of an estate of \$20,000 real; \$10,000 personal. The will, executed February 21, 1928, names Rosa Lindenbaum of Rochester, wife, and Samuel Popper executors. Maker died November 29 1928, in New York. To the wife is bequeathed life estate of the real and personal property; \$10 to a son, Harry Lindenbaum; remainder real and personal to go to a son, Abraham Moses Lindenbaum, and daughters, Bertha and Anna Lindenbaum. Cleon B. Murray of Ellenville, attorney for petitioners.

## JAILED FOR 60 DAYS AND HELD FOR GRAND JURY

Ruth Reed, known better as "Baby Doll", is serving 60 days in the Ulster county jail and is also being held to await the action of the grand jury on a charge of assault in the second degree. Justice of the Peace Jennings at Lake Katrine imposed the sentences Tuesday afternoon, being 20 days for disorderly conduct and 30 days for intoxication. The assault was on Norman Reynolds at Rose's brickyard Sunday morning. She cut him so badly with a knife he was taken to the Kingston Hospital for surgical treatment.

## SEVERE EARTHQUAKES IN NEW ZEALAND CONTINUE

Wellington, New Zealand, June 19 (P).—Severe earthquakes were felt today in Murchison and Takaka counties, both of which were hard hit in the tremors of earlier in the week.

Considerable anxiety was felt as to the fate of the town of Lyell, containing 2,000 inhabitants, which was reported greatly damaged and from which no news was available.

Airplanes tried to sight the town, but bad visibility prevented. All roads leading to it were blocked. There were rumors it had been wiped out but these were discredited.

## Avoid Misunderstandings

Pale famine and frightful pestilence cannot equal the evils and the diversity of troubles which misunderstandings scatter throughout the nation.—De Buller.

## Wicks and Davis On Commission

Albany, N. Y., June 19 (P).—Senator John Knight, majority leader of the upper legislative house, and Joseph A. McGinnies, speaker of the assembly, today made public the names of their appointees to statutory commissions and legislative committees for 1929. The membership of five bodies remained unchanged.

Committees or commissions newly formed or having new members include:

Washington celebration commission: Senator Arthur H. Wicks, Rep. Usher; Assemblyman Willard Davis, Rep. Usher.

The reformation commission includes Assemblyman Ellis W. Bentley, Rep. of Greene county.

The composition of the crime commission, the aviation commission, the Sullivan sesquicentennial commission, the committee to investigate defects in laws of estates and the savings bank committee remained unchanged.

The legislative members of the Saratoga Springs commission and the commission to investigate old age want, included in the announcement, had been previously announced from the executive office.

## LAST NIGHT on the RADIO

The delicate, tinkling tones of the harp, played by Winifred Bainbrink, well known harp concert artist, will form part of the eighth presentation of John Philip Sousa and his band by the General Motors Family Party Monday evening, June 24, of which Fridaure will be host.

Veterans of the A. E. F. and the American Army of Occupation in Germany will have vivid recollections of Lucile Collette, the young American violinist who is to be guest artist in the Atwater Kent Radio Hour Sunday evening June 23. Miss Collette's magic bow brought forth soothing melodies for war weary doughboys in the rest camps throughout the battle torn areas of France and Flanders in 1918 and in Germany during the period of the occupation.

The lure of the "Voice of Firestone" which millions have come to know as the "Dusk Hour Program" each Monday night, will be greater this week because of the selection of "heart songs," fitting both artists and audience. Vaughn De Leath, great contralto whom millions have acclaimed because she never sacrifices tone for her famous dialect songs, crooning melodies, and popular hits, will sing three numbers. They are "Is You", by Carrie Jacobs Bond; "Sposin'", by Razzel; and one of the old classic lullabies, "Waggon", by Brahms. Franklyn Baur, former Ziegfeld star and most successful tenor of the radio world, will sing the favorite "Where My Caravan Has Rested," by Teschemacher and Lohr; "The Sunshine of Your Smile" by Ray; and Gounod's "Ave Maria". The Firestone Symphonic Orchestra directed by Hugo Mariani has three light or popular numbers and the Hungarian Dance No. 5 for its selections on the program.

"Sincerity" originated from two Latin words, "sine cera," which means without wax. In the days of ancient Rome, cracked and chipped vases were made as good as new by filling up the cracks with wax. A "sincere" vase was a genuine one, which had no wax introduced to make it look better than it was.

## TO HONOR WRITER OF FAIRY TALES

### World to Observe Andersen's 125th Birthday.

New York.—Plans now under way for the observance next year of the one hundred and twenty-fifth anniversary of the birth of Hans Christian Andersen by literary bodies and even governments all over the world are announced in the Golden Book.

This tribute to the eccentric Dane, whose fairy tales have probably been translated into more languages than the writings of any other one man, will be in a sense an apology for an all too frequent human error—that of mistaking genius for stupidity. Andersen, it is recalled, was regarded in his youth not only as a dolt but often as a lunatic.

Julius Moritzen, the Danish-American writer, relates how Andersen, in his early teens and beset with desire to shine on the stage, threw a fit of consternation when he arrived in Copenhagen, attired in his father's made-over greatcoat and a hat which fell over his eyes, and presented himself at her house.

He expected the star to sponsor his career, and opened the audience with the announcement that he could play the part of Cinderella. Moreover he removed his boots—to aid his dancing—took his hat in hand for tambourine, and began to trip fantastically over the floor singing: "Here below, nor rank nor riches are exempt from pain and woe."

"My strange gestures and my great activity caused the lady to think me out of my mind, and she lost no time in getting rid of me," Andersen wrote in adult years.

The extreme poverty of Andersen's childhood—his father was a cobbler, his mother a washerwoman—made him the butt of children's jokes and accentuated his sensitivity into characteristic eccentricities which he carried through his life, points out the Golden Book writer. Even when he was successful and acclaimed, he never forgot the slights or painful episodes of his youth, and took pains to repay them in strange ways.

For instance, the minister who was to confirm him as a boy thought him too poor and stupid to bother with, and sent him to his vicar for the sacrament. In later years Andersen, visiting the king of Denmark on the island of Focher, learned that the minister lived near by. He borrowed the king's carriage with its footmen and luxurious trappings and called on the clergyman while the carriage waited in all its ostentation at the door. "That," he related, "was my revenge."

Before his death in 1875, this odd weaver of fairy tales, despite his eccentricities and grotesque appearance, was probably the best beloved of European literary men, even among literary people themselves.

## Radio Waves Sent Back and Forth Over Seas

Schenectady, N. Y.—Tossing around waves back and forth over the Atlantic as though they were echoes reverberating from bank to bank of a river or canyon was the extraordinary performance of radio station WGY, here, and PHJ of Huzen, Holland, recently.

A program sent from PHJ was picked up by WGY and rebroadcast through the General Electric company's short wave station W2X0. The company's station at Chelmsford, England, in turn picked up the American rebroadcast through station G5SW.

## Lindbergh Back From Honeymoon Second Meeting Of Beekeeper

The Up Motor Cruiser at Sands Point, Long Island, and Resumes Work—Invited to Observe Tests For \$150,000 Aircraft Prizes.

New York, June 19 (P).—His honeymoon at an end, Colonel Charles A. Lindbergh was back at work today.

His first professional engagement, since his marriage to Anne Spencer, was at Sands Point, Long Island, tomorrow May 27 was at Mitchell Field "Swarm Control." Any other points of interest will also be covered for the \$150,000 prizes offered for the safest aircraft by the Daniel Guggenheim Fund for the promotion of aeronautics.

Lindbergh was invited to witness the tests in his capacity of trustee and adviser to the fund organization.

Colonel Lindbergh and his bride ended their honeymoon trip yesterday when the famous flier tied his motor cruiser, Monette, to a dock at Sands Point, Long Island.

His return was as secret as the departure of the Monette three weeks ago, when the newly married couple had been cruising along Long Island sound and the New England coast several days before their whereabouts became known.

The Lindberghs were guests yesterday afternoon on the Daniel Guggenheim estate and after lunch, on left in a closed car in the direction of New York.

After observing the safety tests, Colonel Lindbergh is expected to make a three weeks' tour of the Transcontinental Air Transport line which will take him as far west as the Pacific coast. He is technical adviser for the line.

Praises Lindbergh's Seamanship.

His motor yacht was piloted back to its berth at Bayonne, N. J., by Irvin Chase, manager of the company that built it. After inspecting the craft, Mr. Chase praised Colonel Lindbergh's seamanship and skill as a small boat pilot.

"I told Colonel Lindbergh," he said, "that even an experienced yachtsman would be proud of the feat he had performed. To make a 1,000 mile trip up the coast without a crew or navigator, and without any previous experience, is noteworthy. Colonel Lindbergh told me he had not encountered the slightest trouble during the long trip."

The flying colonel's plane, which had been at Schenectady, N. Y., since it was flown there the day after his marriage, was taken back to Curtiss Field yesterday.

## Merchants Donate Gifts to Pageant

Kingston's Favorite Daughters are

showing really valuable assets to the Parents' Exposition for it is through their efforts that the many booths in the automobile show and mer-

chant's and manufacturers' Division are being rapidly secured. The largest space taken to date was by the Van Klief, Stone Co., and was sold by Elena Rider, who heads the list today in the Favorite Daughter election. The winners of the pageant headquarters at 35 John street are displaying the gifts, together with the names of the merchants. A visit to headquarters will testify to the generosity of the merchants of Kingston.

The Industries boys started their preparations today for the floats they will build for the mothers of the 100 per cent division babies, who are going to take part in the huge parade which precedes the opening of the "Parents' Exposition. The parade will start from Pageant Headquarters at 7:30 p. m., Monday, July 1.

In the First Division Baby Girls the Smith twins lead. In the second division Dolores Perry takes the honors and in the third division Ada Bell Markle not only leads, but today leads in all divisions, male and female, taking the honor away from Kenneth A. Dyson, Jr. In the first division baby boys Henry Temple leads. In the second division Richard Eschrich and in the third division Carl Thurn leads. Henry Temple has the highest vote total of all baby boys. A large vote total is expected tonight, due to the fact that one of the free voting coupons expires tonight, but another coupon will appear Thursday and for the balance of the week which will be good for free votes up to and including Saturday night, June 22.

**Plattekill Grange Program.**

An entertaining committee from Lake Katrine Grange will present the program for the evening at the regular meeting of Plattekill Grange to be held on Saturday evening, June 22. The degree team, tableaux and orchestra of Plattekill Grange will confer degrees on a class of candidates at Searsville Grange, Orange county on Wednesday evening.

## It keeps your food safe — the temperature is well below 50...always!

For family health... for appealing menus... this is vital

In the General Electric Refrigerator the temperature is kept several degrees below fifty... always! Fifty degrees is accepted by scientists as the "danger point" in the preservation of food. When the temperature rises even a degree or two above that, bacterium multiply, foods become unsafe to eat. Perhaps you think your own refrigerator is always "cold enough." You cannot be sure unless you actually take your refrigerator's temperature. It is constant cold which is needed.

Note these vital points of superiority  
Countless superiorities give the General Electric Refrigerator its outstanding position... an hermetically sealed, dust-proof mechanism, mounted on top... an accessible temperature control... a new standard of quiet operation... no oiling... no troublesome machinery... simplified installation... no radio interference... an unqualified two-year service guarantee. The new all-steel cabinets and the hermetically

sealed mechanism combine to produce what we believe is the finest refrigerator ever made. Not a dollar for repairs. More than a quarter of a million homes are enjoying the convenience, economy and health-guarding services of the General Electric Refrigerator. And not one of these owners has ever paid a dollar for repairs or service! This is a record in the industry. The new all-steel General Electric Refrigerators are priced as low as \$215 at the factory. A small payment down places one in your home. Visit our display rooms—see the new models—you'll agree that they offer the greatest value.

Listen in on the General Electric Hour, broadcast every Saturday evening, 8 to 9 Eastern Standard Time, over the N. B. C. network of forty-two stations.

If you are going to have a new refrigerator this year, enjoy the advantages of owning a Harder KLEEN-KOLD from the very beginning of the season. Beauty and economy are combined in these features:

Cold, clean and dry inside—Eight insulating surfaces; continuous air circulation.

Easily cleaned, always sanitary—Snow white linings of porcelain or baked enamel.

Massive, modern design—Flush doors without panels; built to endure.

The finest at a moderate price. Make your own comparisons. Quality Higher Than Price

**ONCE.....on a shilling NOW...**

Long ago, the pine tree image was the symbol of sterling--of genuineness--on America's first coin, the Pine Tree Shilling. Today, this quaint old symbol has inspired a glorious new pattern in silver. And appearing on the back of each lovely piece, it says solid silver—once again—unmistakably!
